Come and talk to us for any specific wishes for taping and editing your test. It would be good if you let us know about your order BEFORE your ride, especially if you are interested in using your test for sales footage. Then we can make special arrangements for the taping (e.g. using two cameras from different angles, etc) and take extra material and hi-resolution photos if possible.

Ask about special offers for different events as we can adjust our pricing according to the type of the event. NEW: With the “barn packages” a coach can order all the students’ tests on one DVD – so that everybody can watch and discuss their rides and at the same time share the cost. The package includes 2 or 3 copies of the “group” DVD.

**To assure that we will get your ride on tape, please submit orders BEFORE your ride and to enable fast delivery, please arrange payment before leaving the show.**
